

Fellow Hams; I am 100 years old. 'Way too far along for Morse code. Afraid my old hands would send a series of E's (for ERROR). However, I find that when my son goes to a fire-line (LOTS, in Idaho) or other events I am unable to contact him V VHF. Sure would be nice to enable me to utilize our HF station capabilities. 73 de kc7mwb    TNX
